

# 2018 Colorado Radio Collectors Annual Show and Competition

The **2018 CRC Annual Show** in conjunction with **Vintage Voltage** is on March 18th this year. Time is running out to complete the work on your entries.

This year, the **Specialty Category** is:  
**Unrestored Radios from 1960 or earlier, or  
 "Barn Find Radios"**

This is the 11th year that we will be joining with the Vintage Voltage Show at the Ramada Plaza Inn at I-25 and 120th Avenue in Northglenn.

Every year the turnout is tremendous with thousands of people going through the facility. This is your chance to show off your stuff. Bring your treasured radios and equipment to show everyone and see what others have brought. Although there will be a featured category, don't forget that all of the standard categories will still be available. We have yet to run out of space for the display of radios, so dig deep and bring several of them along.

## These are the judging categories:

### Specialty: "Best Original Condition"
